

AMENDMENTS TO THE CLAIMS

This listing of claims replaces all prior versions, and listings, of claims in the application.

Listing of Claims

1. (Currently Amended) An edible film composition comprising:
 - a. from about 0.01% to about 15% of a fiber agent;
 - b. from about 2% to about 75% of polyvinyl pyrrolidone;
 - c. a plasticizing agent; ~~and~~
 - d. water; and
 - e. a tooth whitening agent;wherein the edible film ~~is capable of dissolving~~ dissolves in an oral cavity during use in about 1 hour to about 8 hours.
2. (Previously presented) The composition of claim 1 wherein the fiber agent is selected from the group consisting of indigestible dextrin, purified wood cellulose, psyllium, and mixtures thereof.

Claims 3 – 19 (Cancelled).

20. (Currently Amended) The composition of claim 1, wherein the tooth whitening ~~composition agent~~ has a concentration between about 1% and about 15% by weight of the composition.
21. (Previously presented) The composition of claim 20, wherein the plasticizing agent comprises polyol.
22. (Previously presented) The composition of claim 21, wherein the polyol comprises glycerin.

23. (Previously presented) The composition of claim 21, wherein the polyol has a concentration between about 0.01% and about 30% by weight of the composition.
24. (Previously presented) The composition of claim 1, wherein the fiber agent is derived from starch.
25. (Previously presented) The composition of claim 24, wherein the fiber agent derived from starch comprises indigestible dextrin.
26. (Previously presented) The composition of claim 1, wherein the concentration of the fiber agent is between about 4% and about 10% by weight of the composition.
27. (Previously presented) The composition of claim 1, wherein the composition further comprises xanthan gum.
28. (Previously presented) The composition of claim 1, wherein the edible film has a thickness between about 0.025 mm and about 0.25 mm.
29. (Previously presented) The composition of claim 1, wherein the composition further comprises a flavoring agent.
30. (Previously presented) The composition of claim 29, wherein the flavoring agent has a concentration between about 0.1% and about 10% by weight of the composition.
31. (Previously presented) The composition of claim 29, wherein the composition further comprises vegetable oil.
32. (Previously presented) The composition of claim 29, where the composition further comprises a surfactant.

33. (Previously presented) The composition of claim 32, wherein the surfactant has a concentration between about 0.05% and about 6% by weight of the composition.
34. (Previously presented) The composition of claim 32, wherein the surfactant has a concentration between about 0.1% and about 3% by weight of the composition.
35. (Previously presented) The composition of claim 32, wherein the surfactant is non-ionic.
36. (Previously presented) The composition of claim 1, wherein the water has a concentration between about 64% and 76% by weight of the composition.
37. (Previously presented) The composition of claim 1, wherein the fiber agent has an average fiber length between about 15 microns and about 700 microns.
